OUTLINE

In the digital finance landscape, **Sanatani Coin** emerges as a revolutionary digital asset built on the rich traditions of **Sanatana Dharma**. This whitepaper delves into the concept of the Sanatani token, its technology, backbone, and the mission behind the project.

SYNOPSIS

Sanatani is a crypto token built on the technology of **BEP-20** (Binance Smart Chain). It is developed to bring traditional faith and values to our modern financial goals. To be clear, Sanatani Coin is the name of the platform, and the project name is Sanatani token.

The main motive behind introducing the Sanatani token is to create a strong bridge of divinity, technology, and community that delivers a lasting, powerful impact on the Sanatanis. Also, to promote Sanatana Dharma and empower financial sovereignty among the maximum number of people, we have entailed a Dhan Vriddhi Venture in our ecosystem.

SANATANA DHARMA

Sanatana Dharma is considered the oldest religion in the universe, originating from the Indian region. It is originally derived from the Sanskrit term "**Sanatana**," which means "**eternity**" or "**everlasting**," and "**Dharma**," which means "an absolute set of duties" or "**rituals**." Today, Sanatana Dharma (the Eternal Path) is commonly known as Hindu Dharma (Hinduism). It is the third largest growing religion in the contemporary world, with over **1 billion** devotees.

The core principle of Sanatana Dharma is to live honourably. It teaches us to live according to virtues such as compassion, generosity, and honesty. For centuries, the Vedas have been our ultimate source of knowledge (Gyan).

That is why the lives of our ancestors were pleasant and purposeful in every aspect because they used to practice Veda Gyana in their everyday lives. In financial lessons, Vedas explicitly states that money is the 'green energy' you receive in exchange for your physical and mental efforts. In other words, it asks us to put our inherent energy in such a way that it benefits others.

Considering the lack of such useful wisdom followed for ages, we decided to bring Sanatani community tokens. With it, we can reiterate the Vedas and other Sanatani scriptures so that one can live to the fullest and attain salvation by practising meaningful supreme duties that benefit them and others.

INTRODUCTION: **SANATANI TOKEN**

 Divinity

 Technology

 Community

The Sanatani token is a community token built on the Binance Smart Chain, BEP-20. Its ticker symbol is SNTN. It has developed its economic model on the footprint of Bitcoin (BTC), which is considered one of the best and easiest models. In such models, the token supply remains pre-decidedly fixed, creating scarcity at some point. This scarcity pushes the value of tokens to go up. Sanatani tokens have entered the market with a fixed total supply of 12 billion, whose value is assumed to rise at some point in the future.

Users willing to own Sanatani tokens can join its Dhan Vriddhi Venture (ecosystem) or find it on cryptocurrency exchanges for trading purposes. The entire ideology behind the Sanatani token runs on three core tenets.

Divinity:

Sanatana Dharma teaches the duties and core principles of life incorporated with Vedas, Upanishads, and Puranas, which guide people to choose the path of traditional enrichment, eternal truth, and values in human society. It guides and describes various aspects of the life living the lives of Sanatanis throughout the world, including financial interactions and lessons. With the launch of Sanatani Token, we aim to re-serve that financial and economic wisdom to the community we may have left so far away.

Technology:

Sanatana Dharma always teaches us to practice and remain superior to all, so we want Sanatanis to be technophiles in the ever-evolving industry of innovations. We are here to empower the Sanatanis to become acquainted with the revolutionized technologies of cryptocurrency, blockchain technology, DeFi, etc. These sectors have become one of the global economy's most dynamic and rapidly expanding segments. Often hailed as digital gold, Bitcoin has witnessed remarkable demand, surpassing ALT market cap and rewriting the investment rules

Community:

The contemporary world is entering rapidly growing high-tech communities like Web 3.0. At Sanatani Token, we aim to empower Sanatani people to get into such communities. To smooth the intricate community-building process, we have developed the Dhan Vriddhi Venture (entire ecosystem) of Sanatani Token. Sanatani Token is the world's first digital currency built to provide economic and social benefits, ensuring long-term sustainability.

To shape a future where financial empowerment aligns seamlessly with the sacred principles of Sanatani divinity, we have developed an ecosystem that allows people to integrate with the like-minded. It is fully developed to deliver faith, finance, and freedom.

AIMS AND OBJECTIVES

We aim to ensure a more decentralized approach and create a backbone for the Sanatani community. To build a global community of cryptocurrency enthusiasts and investors with a common interest in staking and earning rewards.

The team behind the project desires to encourage the adoption and use of digital assets for value transfer and wealth generation. The main objective of unveiling the **Sanatani token (SNTN)** is to invent the economic future of the Hindu people (**Sanatanis**).

UNDERLINE TECHNOLOGY

Let's get a quick technical knowledge about the technology on which Sanatani tokens are built.

Firstly, BEP stands for **Binance Smart Chain** Evolution Proposal. This smart chain has a variety of developed token standards, such as **BEP2, BEP20, BEP721, BEP1155** and many more.

The Sanatani tokens are built on one of the notable Binance token standards, BEP 20. The BEP 20-based tokens are digital assets that do not own any blockchain. Instead, they are completely minted on the Binance Smart Chain (BSC) blockchain technology. The BSC technology ensures BEP 20 built tokens remain compatible and can be smoothly traded on DEXs (decentralised exchanges) and platforms supporting the Binance Smart Chain. To be concise, the BEP 20 tokens work similarly to the ERC 20 standard of Ethereum blockchain technology.

The parameters like inflationary minting, deflationary burning mechanism, pause parameter in uncertain circumstances, and less costly attribute of the BEP20 standard make it a better choice. That is why we have decided to mint our tokens on the BEP 20 token standard.

AN ECOSYSTEM: DHAN VRIDDHI VENTURE

It is the **SANATANI Revolution** – Where Tradition Meets Innovation for Financial Liberation. To create a digital platform for Sanatanis living around the Indian region or anywhere in the world, we are launching our **Dhan Vriddhi Venture**. Sanatanis can connect and communicate through this ecosystem by building their digital networks. The users can earn a passive income or generate a side hustle source of income by signing up on the **SNTN app**.

We are on the way to developing a divine path that starts with faith, unity, and love and ends with everyone's progress. While peeking at history, we find that Sanatana Dharma always remained superior to all, whether it was the **Satya (or Krita) Yuga**, the **Treta Yuga**, the **Dwapara Yuga**, or the **Kali Yuga**.

So, why be left behind somewhere when the world evolves with revolutionary innovations and technologies?

DHAN VRIDDHI VENTURE MODEL:

Dharmik Abhivyakti (Referral Reward)

Simply refer to family, friends, or anyone interested and get a token per successful **sign-up**.

Dharmik Sambandh (Network Reward)

When three of your referrals register and deposit funds, you will get up to **5%** of their total investment.

For more details, refer to the chart.

USER	TOTAL INVESTMENT	NETWORK PERCENTAGE	NETWORK INCOME
3	30000 USDT	5%	1500

Dharmik Dhanvridhi (Staking Rewards)

After signing up with a minimum deposit of 10 USDT, get 10,000 tokens. Users can stake them in daily rewards and get **0.3%** of the investment for 350 Days.

ACTION	CONDITION	REWARD PERCENTAGE
Receive Tokens	Minimum Deposit (10 USDT)	10,000 tokens
Initial Staking Reward	Total Investment < 11111.11 USDT	0.3%
Increased Staking Reward	Above 11111.11 USDT	0.4%

Dharmik Sambandh Dhanvridhi (Network Staking Reward)

The users' community members stake tokens in portfolios. The network offers rewards based on the staking percentage and the total investment.

LEVEL	TOTAL INVESTMENT (\$)	STAKE PERCENTAGE	STAKED TOKENS	NETWORK STAKING REWARD PERCENTAGE	NETWORK STAKING REWARD (TOKENS)
1	\$30,000	0.3%	90	5%	4.5

Ananda Rajya (Royalty Reward)

The user can earn royalty rewards by reaching up to 12 levels, with higher levels offering greater rewards and unique status tags.

LEVELS	LEVEL NAMES	TOTAL INVESTMENT	ROYALTY INCOME PER DAY
1.	Dharma (Righteousness)	30,000 COINS	-
2.	Sankalpa (Determination)	90,000 COINS	-
3.	Viveka (Wisdom)	2,70,000 COINS	-
4.	Karma (Action)	8,10,000 COINS	100
5.	Anushasan (Discipline)	4,30,000 COINS	100
6.	Adhikara (Authorization)	72,90,000 COINS	1000
7.	Bhakti (Devotion)	2,18,70,000 COINS	1000
8.	Satya (Truth)	6,56,10,000 COINS	8000
9.	Tapas (Austerity)	19,68,30,000 COINS	8000
10.	Dana (Generosity)	59,04,90,000 COINS	1,00,000
11.	Ananda (Bliss)	1,77,14,70,000 COINS	1,00,000
12.	Aatmanirbhar (Self-reliance)	5,31,44,10,000 COINS	10,00,000

Leela Laabh (Play and Reward)

This is another exciting game that offers our users the chance to play and earn rewards, with the opportunity to win up to **10 tokens daily**.

MISSION & VISION

We have commenced this network to unite the **Sanatanis** and promote **Sanatana Dharma** to the maximum number of people possible. We envision a unique intersection of religious faith and financial freedom, symbolizing the fusion of ancient wisdom and ultra-modern technology.

Combining our traditional (**scripture**) principles with blockchain technology can revolutionize the contemporary financial landscape. Our mission is to build a crypto and a smart, secure network smoothly operated by everyday people.

With a deep understanding of Hinduism's significance, our vision is to reintegrate the inclusive **peer-to-peer** ecosystem and financial principles embedded in Sanatana Dharma into the lives of over a billion followers worldwide.

TOKENOMICS

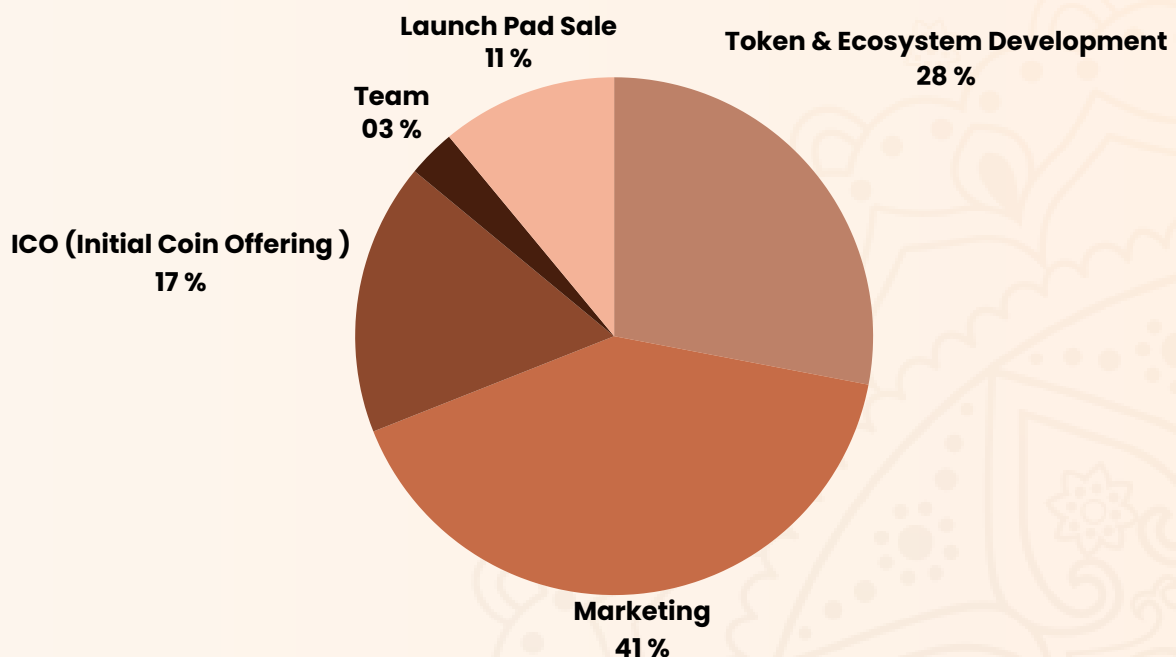

TOKEN NAME	SANATANI
TECHNOLOGY USED	BEP-20 (Binance Smart Chain)
TICKER SYMBOL	SNTN
TOTAL SUPPLY	12 billion
INITIAL TOKEN PRICE	0.001 USDT
DECIMALS	18
BURNING RATE	20%
CONTRACT ADDRESS	0x1134550d88286ed7100a1282a0c857f4f9a73924
BLOCK EXPLORER	https://bscscan.com/token/0x1134550d88286ed7100a1282a0c857f4f9a73924

Any Discount Available- 5% offer for Sanantani community

TOKEN UTILITY

- Establish a fund for welfare programs addressing healthcare, disaster relief, and poverty alleviation
- Contribute to the growth of educational institutions
- Providing Government Policy Assistance
- Facilitate seamless and transparent donations to temples and ashrams
- Fund for the preservation of Sanatana Dharma's cultural heritage and scriptures
- Facilitate spiritual tourism by offering travel-related services and discounts
- Implementing Technological Solutions with the principles of Sanatana Dharma
- Decentralized Governance Participation, allowing holders to contribute in the token's future

TOKEN ALLOCATION

ROADMAP

Q3 (2023)

- Analysing Sanatani Community
- Ideation of the concept
- Market Research
- Team building

Q4 (2023)

- Fact-finding about Sanatana Dharma
- Early-stage token development
- Alpha & beta testing
- Token deployment

Q1 (2024)

- Website, App & other social handles
- Project Launch
- Listing on CoinCRED PRO
- Development of its staking system
- Community Engagement and Awareness

Q2 (2024)

- Listing on exchanges
- Announcing its Utilities
- Explore partnerships, collaborations & integrations
- Tokenomics Refinement

Q3 (2024)

- Marketing
- New use cases defining
- * **way more to create**

TEAM

PROJECT HEAD: AJAY RAJ PANDEY

Ajay Raj Pandey, a retired Police Officer and Chairman of the Indian Police Maha Sangh is the **Project Head** of **Sanatani Community Token**. He has been keenly interested in industries like Finance and IT for so long, responsible for building up such a huge technical project. Moreover, he is a devotee of Sanatani cultural preservation extends beyond his professional background.

By launching the **Sanatani blockchain project**, Pandey's leadership transcends traditional boundaries in this unique intersection of law enforcement, cultural advocacy, and technology.

At the project, he desires a future of human connection integrated with the path of divinity and innovation. Under Pandey's guidance, the Sanatani Token project is not merely a crypto venture; it's a testament to the enduring spirit of **Sanatan Dharma**.

Let's write a new chapter in the saga of Sanatan Dharma together
